Agenda and Food/refreshments: Please see agenda available through the meeting registration page. This meeting will include a special dedicated session on the ever-growing field of Radiopharmaceuticals and Theranostics. We are very excited and fortunate to have Dr. Rob Hobbs (Johns Hopkins School of Medicine) join us as our meetings' invited keynote speaker. Dr. Hobbs is a national leader in the field of Radiopharmaceutical Therapies (RPT) and is heavily involved in AAPM Task Groups and committees for this field! This session will also feature talks from a couple of our chapter's amazing physicists who specialize in RPT/Theranostics.

We intend to have a continental breakfast at the start of the meeting, two snack/coffee/refreshment breaks, and a lunch break. Vendors are invited to share all food and meeting refreshments!
